On October 1, 2009, the State Water Resources Control Board (State Water Board) issued Order WR 2009-0058-DWR approving the petitions for temporary transfer of water and change pursuant to Water Code sections 1725 and 1707 filed for Permits 11885, 11886 and 11887 regarding the Friant Project on the San Joaquin River. On October 7, 2009, Jon D. Rubin brought a typographic error to our attention. Mr. Rubin serves as counsel for San Luis & Delta-Mendota Water Authority and Westlands Water District. The October 7 letter was provided to all parties. Condition 15 of Order WR 2009-0058-DWR is amended as shown in bold text.

Rediversion and conveyance of water under Permits 11885, 11886 and 11887 by or through Central Valley Project (CVP) or State Water Project (SWP) facilities is limited to pumping and conveyance that is available at the C.W. Jones Pumping Plant, at the Harvey O. Banks Pumping Plant, in the Delta-Mendota Canal or in the California Aqueduct, after satisfying all statutory and contractual obligations to CVP contractors entitled to **CVP water and SWP Contractors entitled to SWP** water from Delta Facilities and that existed prior to the date of the change order, including but not limited to: (1) obligations related to Level 2 and Level 4 refuge water supplies; (2) obligations under existing or future water service, exchange, or other settlement contracts; (3) all obligations involving or intended to benefit CVP and/or SWP contractors served water through Delta Division facilities, including the Environmental Water Account, Yuba Accord, or similar programs; (4) obligations under existing or future long-term water supply contracts involving SWP contractors served SWP water through Delta Division facilities; and (5) all water delivery obligations established by the SWP Water Supply Contracts, including, but not limited to, the categories of deliveries set forth in Article 12(f) of such contracts.
